ARX200
CQB 12"

INTRODUCING THE NEW ARX 200 CQB RIFLE

BORN TO EXCEED

The Beretta ARX 200 is the new CQB rifle in calibre 7.62 mm x 51 NATO, designed to exceed the military standards.

The ARX 200 features fully ambidextrous controls (bolt catch lever, magazine release button, fire selector) and is equipped with an interface for the Beretta GLX 160 (40x46mm) grenade launcher, a telescopic / foldable stock as well as a complete set of rails on all sides of the weapon. The design of the gun components has been optimised in order to ensure the highest level of accuracy and reliability. A complete range of accessories makes the ARX 200 the best choice for Military and Law Enforcement community, suitable for any combat situation.

STOCK Foldable and telescopic. Adjustable cheek rest and shock absorber back plate. 4 fixed sling attachments located on the rear and detachable swivels on the front.

ICS 6X40
Innovative Steiner
Combat Sight.

AIMING SYSTEM
Front sight adjustable
for elevation. Rear sight
adjustable for windage
and range setting.
